

## Creasing - Perforating Machine GPM 315

Easily manageable machine with working width 315 mm allows smooth folding of wedding cards, invitation cards, seasonal cards, etc. Creasing made by GPM 315 enables to fold paper easily without any paper damage. The perforated finish can be applied on tear-off paper products such as admission tickets, vouchers, food coupons, etc.

- Solid metal construction
- Excellent for small and medium jobs
- Designed for both creasing and perforating
- Useful also for creasing laminated documents
- Two sizes of creasing bars
- Two adjustment screws for absolute precision
- Possibility of 45° angle crease
- Practical and decent design
